

As a VSP member with The Ohio State University, you can receive additional services to support your overall health. During your annual eye exam, participating VSP network doctors will provide a diabetes screening, at no additional cost. The screening consists of taking the American Diabetes Association Risk Test and, if you're at risk for diabetes, having an A1C screening test via a finger stick, to measure your average blood sugar of the last three months.

Select one of the participating VSP network doctors below and book your exam today.

## End of List

\*The Premier Program may sound like something that will cost money above and beyond what your plan calls for, but good news: it doesn't! All VSP members have access to the Premier Program - which is part of our incredible network of highly knowledgeable doctors. VSP network doctors who participate in the Premier Program provide the personalized attention you want and the ease you need. They also carry the latest technology available and provide bonus offers that are exclusive to Premier Program locations‡. Simply put, members get the most from their benefits when they visit a Premier Program location

‡Participation in the Premier Program is limited to independent private practice doctors, hospital center locations, and Visionworks. The Premier indicator is not meant as a designation of care quality as all our doctors already meet VSP's high quality standards for professional services. Discounts and services guaranteed through the Premier Program may still be available if you choose to visit a provider that does not participate in the Premier Program. Call your eye doctor to verify services and discounts.
